Offloading with Mobility

Heelift® AFO

Patent Pending
Authorized Code: L4396

Sometimes you need more than just offloading. You need the superior foot drop support of an AFO, a comfortable night splint, and an offloading boot that stays in place and moves with your mobile patient. You need the Heelift® AFO.

With a semi-rigid brace that provides excellent support and prevents foot drop, the Heelift AFO also offloads the heel to relieve pressure. The new fabric cover and forefoot strap help to keep the boot in place by allowing the boot to move with the patient while in bed.

AMBULATION WITH ASSISTANCE:

Heelift AFO has a non-slip sole that allows patients to walk short distances, meaning you don't have to remove and reapply the boot after the patient is transferred from the bed or wheelchair. Assistance is recommended.

FEATURES OF THE HEELIFT AFO:

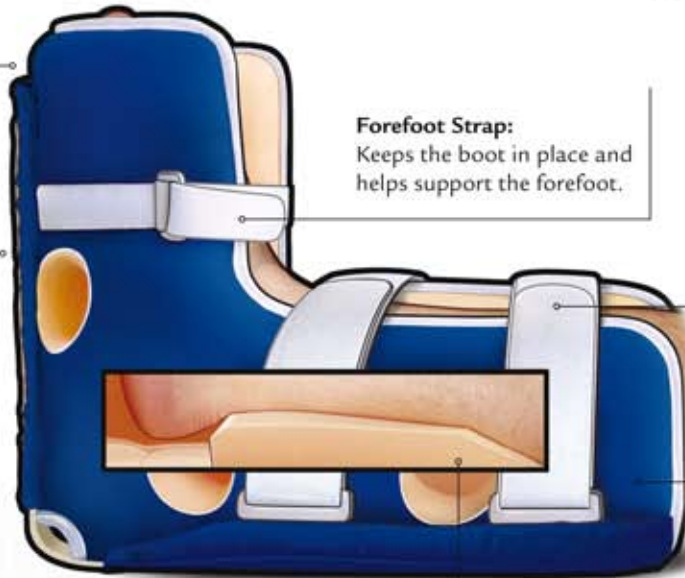

HEELIFT
ANKLE FOOT ORTHOSIS

Extended Forefoot:
Provides additional protection for the toes.

Non-Slip Traction Sole:
Aids with patient ambulation.

Heel Suspension Opening:
Allows for visual inspection of the heel.

Forefoot Strap:
Keeps the boot in place and helps support the forefoot.

Soft Closure Straps:
A simple solution for a custom fit.

Durable Exterior:
Allows the patient's leg to move easily across bed sheets.

Semi-Rigid Brace:
Provides superior foot drop protection and support.

Affixed Elevation Pad:
Lifts the leg to suspend the heel, promoting the ideal environment for an ulcer to heal.

HEELIFT AFO IS INDICATED FOR:

- Dorsiflexion ankle support for paralysed legs
- Comfortable night splint
- Treatment/Prevention of plantar flexion contracture
- Treatment of plantar fasciitis
- Treatment/Prevention of foot drop deformity
- Treatment of Achilles tendinitis

CHOICE OF TWO INTERIORS:

Available with a smooth foam interior for patients with sensitive skin (ideal for edematous legs), or a convoluted foam interior for better air circulation.

CUSTOMISATION:

Like all Heelift boots, the Heelift AFO can be customised to meet your patients needs. A spare foam pad and included instruction guide allow for several customisation options.

WASHING:

The Heelift AFO can be washed and dried in a laundry bag or pillow case.

Affixed pad suspends the heel and redistributes pressure.

SIMPLE. PROVEN. SOLUTIONS.
